Poetry.

The Farmer's Daughter.

She may not, in the many dance,
With jeweled maidens fair;
She may not smile on courtly swain,
With eyes so bewitching eye;

She cannot boast a form so meek,
That lavish wealth hath bought her,

The farmer's peerless daughter!

The rose and lily, on her cheek,

Together love to dwell;

Her laughing blue eyes wreath around

The heart's witching spell;

Her heart is bright as morning's glow

Upon the dewy plain;

And listening to her voice we dream

That spring has come again.

The timid fawn is not more mild,

Nor yet more gay or free;

The lithe cup is not more pure,

In all its purity;

Of all the wild flowers in the wood,

Or by the crystal water,

There's none more pure or fair than she,

The farmer's peerless daughter!

The haughty belle whom all adore,

With downy pillow lies—

While forth upon the dewy lawn

The merry maidie lies;

And with the lark's uprising song

The NEW Era.

Newmarket, Friday, Sept. 12th, 1856.

The Hon. Mr. Chabot has been appointed to the seat on the Bench, vacated by the death of the late Judge Vandenberg.

We understand that Mr. J. Forsyth has left his Tavern stand in this place, known as the "Railway Hotel," to Mr. Wright, late of the "Orange Brewery," Newmarket, for a term of years.

At the close of a public meeting, lately held in Owen Sound for the purpose of hearing the views and principles of the several candidates soliciting the suffrages of the electors of Saugeen, Mr. Beatty, the Government candidate, was burnt in effigy.

The Corporation of Toronto have made proposals to the Government to purchase a portion of the Garrison Common, near the Lunatic Asylum, on which they propose erecting a new Gaol. We are pleased to find the authorities have become alive to the subject of prison accommodation.

The Hand-Bills announcing the Fall Show of the N. Y. Agricultural Society are now printed and ready for distribution. The Directors, and others interested, will please call at this office and obtain a supply, to post in their respective localities. An increase in the premium list, of between £12 and £15 has been made this year.

The prospectus of a new paper, to be called "Porter's Spirit of the Times," has reached us. It is to be published at New York, weekly, at \$3 per annum, and will be devoted to the "Turf, Field Sports, Agriculture, Stock Breeding, Literature," &c. This journal will be edited by the late able and talented editor of the "N. Y. Spirit of the Times," Mr. Wm. T. Porter, who is also the publisher. It is intended to make the forthcoming "Times," the "great sporting journal of America."

Some time ago we sent out a large number of accounts to subscribers in arrears. A goodly number at once forwarded the amounts due; but we are sorry to say a large majority have paid no attention to our request. Now that harvesting is over, we hope those in arrears for the current volume will either send the amount by post, or call at the office and settle their accounts. We cannot go on from year to year furnishing papers to hundreds of readers who never think of paying for them—or if they do, only as some idle dream. Between four and five hundred pay regularly in advance; but it takes all the profit and a little more, to supply those who seldom or never pay, and we are consequently prevented from making the paper what we should like to see it.

The Leader, in his issue of Wednesday, says the meeting at East Gwillimbury was attended by but "Fourteen" inhabitants of the Township. This we pronounce a gross untruth—there being nearer 100 than "fourteen." The Leader says "Mr. David Wilson lost in disgust." Here is another vile fabrication; that gentleman told us personally there was no use in his attending the meeting, in consequence of being quite deaf. Somebody has been playing a hoax on the Leader. He seems to think a strong man would defeat Mr. Hartman in this Riding at another contest; while at the same time he argues that it is that gentleman's friends who are getting up these meetings. Now, Mr. Leader, had the "Clear Grit, or vulgar party," as you have been pleased to style them, any such misgivings do you imagine they would be agitating for a new election? It would be simply ridiculous. The Leader got his information through an interested clique, not worth paying attention to. It is well known by whom. More anon.

Whitchurch Public Meeting!

The Government again denounced!

Pursuant to notice given by the Reeve of Whitchurch, Joseph Hartman, Esq., M. P. P., at the request of a goodly number of Requisitionists, a large and respectable public meeting of the electors was held at Lemonville on Wednesday last, the 10th inst.

The meeting organized by calling the Reeve to the Chair, and appointing Mr. Jackson secretary.

The Chairman stated the object of the meeting as expressed in the notice was to take into consideration the propriety of petitioning the Governor General to dissolve the present Parliament and issue writs for a new Election immediately. It was one of the peculiarities of a free people to have liberty of speech, and at Whitchurch we boast of this freedom. Since the great demonstration at Toronto, public meetings have been held in various sections of Upper Canada, and nearly every one of them have unanimously declared against the present Administration. In two instances this Riding had already expressed their disapproval of meetings of this kind, and he was satisfied Whitchurch would not be behind. He would not take up the time of the audience by any lengthened remarks; and would only say that the meeting was now open for the transaction of business.

John R. Brown, Esq., Deputy Reeve, then proposed the first resolution, seconded by Mr. Geo. Brodie, which read as follows:

Resolved—"That the large additions to the public burdens made by the present Ministry and their immediate predecessors, without any corresponding benefit, manifest their entire unfitness for office; they hold and warrant this meeting in condemning them as unworthy of public confidence."—Carried unanimously.

Dr. Freez rose to move the second resolution, which read as follows:—

Resolved.—"That the clause in our common School Law granting Separate Schools to Roman Catholics, is calculated to engender strife—perpetuate religious bigotry, and destroy, ultimately, our noble system of national education, and should therefore be repealed."

Dr. Freez said—"This resolution strikes at the root of all the evil. The spirit of Priestcraft exercised more or less influence over all the legislation of the past few years. Previous to the Union we heard no talk of Protestantism on Catholicism, in Upper Canada; but no sooner were the two Provinces united than the hydreaded monster made its appearance. Suppose we had two Schools in this locality—one a Protestant and the other Roman Catholic—why, feelings of animosity, and strife would at once be engendered. This clause should be repealed. Look at the correspondence lately published showing what had been going on between the Bishops and the Government. It was nothing more nor less than secret coercion to destroy our system of national education; and because the demand was not acceded to, four members of the Administration were publicly denounced. But the Government deserved no credit for not granting the request. He was sorry to see the course pursued by Mr. Bowes—it was highly disreputable: and although a member of the same Order to which he (Bowes) belonged, he could not help denouncing him as a betrayer of his country. It was the same coercing spirit that induced the granting of 4,000,000 acres of Upper Canada lands to build Lower Canada Railways. The whole secret was no doubt to bring in a Roman Catholic population to trample down Protestantism. Now, sir, can that man be a Briton who would not denounce such nefarious transactions?" (A voice—"No!") He hoped the meeting would excuse him for diverging from his subject a little. For one he felt that the chairman occupied a very different position to-day from the renegade Burton, of Port Hope, who was publicly denounced a few days ago by his constituents. The same parties who support this clause in the school law voted for Quebec as a permanent seat of Government,—and why? because there liberty of speech would be denied. The opposition would not dare to take the same stand against priestly encroachments. Geo. Brown would be prevented from manfully advocating Upper Canada rights. You, Mr. Chairman, would be silenced, and every one who said aught against their mandate would be Garazzied. (Hear, hear.) No, sir, go their and take a bold and determined stand against Popery, and you won't come back again. (Hear, hear.) He was sorry to have to apologize for departing from the subject; but when he reflected on the tendency of things at the present time, he could see the same influences at work in every direction, and it made him feel strongly on the matter. With these remarks he would move the adoption of the resolution he had read. (Cheers.) Mr. Hill seconded the resolution, and it was unanimously adopted, amid applause.

Moved by Mr. James M. Patterson, seconded by Mr. Robert Tamer, and—

Resolved.—"That the recklessness manifested in the recent legislation on the subject of the Grand Trunk Railway, and in giving 4,000,000 Acres of Upper Canada Lands to pay for building a Road in Lower Canada, is a standing disgrace to its authors and abettors, and should drive them forever from the public service loaded with the execrations of the people of Canada."—Carried unanimously.

Moved by Dr. Hackett and seconded by Mr. Wm. Wallis:

That it is expedient that a good road of gravel or plank or both, be immediately constructed along the Town Line of West Gwillimbury and King from Newmarket to the neighborhood of Brownsville.

Moved by Dr. Hackett and seconded by John Sharp, Esq.:

That Stock Books be immediately opened for the purpose of subscribing Stock requisite to build the road, say to the Two Oak Trees on the town line of Tecumseh, West Gwillimbury and King, previous to the election of Directors.

Moved by Mr. D. Sutherland, and seconded by Mr. Martin Bogart:

That it is the opinion of this meeting that means of access from the country lying west of Newmarket, is highly necessary for the full development of the natural advantages of that neighborhood, and as well of Newmarket.

Moved by Capt. Berresford, seconded by Mr. Wm. Wallis:

That it is expedient that a good road of gravel or plank or both, be immediately constructed along the Town Line of West Gwillimbury and King from Newmarket to the neighborhood of Brownsville.

Moved by Dr. Hackett and seconded by John Sharp, Esq.:

That Stock Books be immediately opened for the purpose of subscribing Stock requisite to build the road, say to the Two Oak Trees on the town line of Tecumseh, West Gwillimbury and King, previous to the election of Directors.

Moved by Mr. Amos Doan:

That a survey and estimate of the road be made by a competent surveyor—that subscriptions be taken up immediately to pay for such survey, and that the amount of such subscription be afterwards admitted into stock.

Moved by Mr. James Culverwell, and seconded by Mr. Moses Bogart:

That Messrs. J. Sharp, Martin Bogart, R. H. Smith, D. Sutherland, Dr. Hackett, E. Jackson, Jas. Culverwell, and Capt. Berresford, be a committee to get the requisite amount of Stock subscribed to form a company—employ a Surveyor and receive his report—after which to call a meeting of stock-holders to appoint Directors.

Our limited space this week precludes the possibility of giving a lengthened report. We may however remark that there is no doubt but the work will be proceeded with almost immediately—nearly £1000 worth of stock having been taken up by seven gentlemen upon the spot, viz., Mr. D. Sutherland, 50 shares; Capt. Beresford, 50; Mr. J. Culverwell, 20; Mr. Wm. Wallis, 20; Mr. J. Sharp, 16; Mr. Martin Bogart, 10; Dr. Hackett, 10. The shares are held at £5 each. We purpose returning to this matter next week.

Recent Developments—No. Election!

The past few days have more clearly developed the plans and future course of the Coalition, *alias* the "Government of Canada," with regard to a new election. That they will not yield to the almost unanimous voice of Upper Canada may be inferred, from the fact that the Minister of Agriculture has determined on becoming a candidate for the Ridout District, and thus gain a seat in the Upper House. Should he be returned—and it is a rare thing for a member of any Administration to be defeated in or near the Lower Province—the present Government will be decidedly Lower Canadian. What kind of legislation, therefore, another Session will witness, may readily be anticipated.

Although Mr. Vankoughnet is a stranger in the Ridout District, and although there are two or three local candidates in the field, men apparently well qualified to represent the constituency,—the Minister of Agriculture, and President of the Council of the "Government of Canada," has determined to force himself and his services upon the electors. Some will say—"Is not this singular! Have not the electors power to do this themselves?" Only to a certain extent. Government machiavicy is being put in operation: the Canada Gazette announces appointments, the local papers are enlisted in his service, government patronage is liberally bestowed, long advertisements appear in comparatively unknown journals, with the Royal Arms at the top, and thus the campaign opens. What does all this indicate? Why, simply, as a city contemporary says, the President of the Council is prepared to "say money," yes money! to the electors of Ridout.

With the foregoing evidences of ministerial plans and operations, we are led to the conclusion that the just expectations of the people of Upper Canada—in regard to a new election—will be thwarted, and their well understood wishes set at naught. One argument made use of by ministerial organs is that a new election would be of great expense to the country; but we find the people voluntarily spending their time and money in getting up meetings to condemn the Government of the day, how much more readily would they spend it in endeavouring to hurl them from place and power! besides, one single week's legislation of the present House, during the past session,—yes, perhaps a single day,—may be cited as witnessing the squandering of more money than would pay all expenses! We have nothing to loose, therefore by an appeal to the people, while it is to be hoped the country would gain by the selection of more honest men, men who would have some regard for their own reputation, and be influenced by motives other than personal.

Moved by Mr. Joshua Willson, Councillor, seconded by Mr. J. P. Davis:

Resolved.—"That the present Ministry, and the majority by whom they are supported in Parliament, do not possess the confidence of the people, and therefore that the Chairman be requested, on behalf of this meeting, to moralize His Excellency the Governor General,

earnestly praying him to dissolve the present Parliament at an early day, and issue Writs for a new election."

Mr. Willson said he was pleased to see so many present, and to witness so warm a feeling as had been manifested. He was satisfied, that by unity of effort and unity of action, without paying attention as to what may be the religious creed of any one, we could accomplish all that might be wanted. He believed it was in the hands of the people to at once upset this rotten Government. It was previous to be hampered in our rights; and a few more sessions of legislation like the past and the country will be seriously hampered with taxation. For his part, he thought we would be better off without a Parliament at all, than have the business of the country conducted the way it is at present. "Unity of action" and purpose was the only thing that would overcome the evil. He would move the adoption of this resolution.

Dr. Freez said—"This resolution strikes at the root of all the evil. The spirit of Priest-

craft exercised more or less influence over all the legislation of the past few years. Previous to the Union we heard no talk of Protestantism on Catholicism, in Upper Canada;

but no sooner were the two Provinces united than the hydreaded monster made its appearance. For his part, he thought we would be better off without a Parliament at all, than have the business of the country conducted the way it is at present. "Unity of action" and purpose was the only thing that would overcome the evil. He would move the adoption of this resolution.

Dr. Freez said—"This resolution strikes at the root of all the evil. The spirit of Priest-

craft exercised more or less influence over all the legislation of the past few years. Previous to the Union we heard no talk of Protestantism on Catholicism, in Upper Canada;

Special Notices

Holloway's Ointment and Pills—Glandular swellings in the throat, neuralgia, tic doloreux, rheumatism, gout, lumbago, and other diseases affecting the glands, muscles, and nerves of sensation, are permanently eradicated by the persevering application of this healing, antiseptile, pain-destroying preparation. Irritating eruptions, running sores, open wounds, burns, scalds, the bites of venomous insects or reptiles, and, in short, all the varieties of superficial inflammation, soon lose their angry and painful character when treated with Holloway's Ointment. The Pills have never yet been administered in dyspepsia, liver complaint, or disorders of the bowels, without producing the desired results.

SIR ASTLEY COOPER'S PILLS.

The whole of our system is built up from the Blood—Nerves, Sirs, Muscles and even Solid Bone; this being the case, the grand object is to keep this precious fluid (the blood), in a pure and healthy state, for without this purity will itself allow it no time or other.

Sir Astley Cooper's Pills will purify and cleanse the blood better than any other Medicine.

Sir Astley Cooper's Pills will be found a safe and admirable remedy for Bilious Complaints, Dyspepsia, Costiveness, Sick Headache, Pains in the Back, Gravel, Lumbago and Depression of Spirits. Invalids should make an immediate trial of this excellent, long tried and successful medicine.

They have been amply tested in the most distressing of nervous affections, and thousands who have been afflicted in every possible way are daily bearing their grateful testimony to the great benefits they have received from their constant use, and who are now rejoicing in a renewed state of health, after having long despaired for ever possessing it again.

BEWARE OF COUNTERFEITS.—To prevent imposition, be sure to ask for the Genuine Sir Astley Cooper Pills, prepared in London and New York; if you ask for Sir Astley Cooper's Pills only, you will get a spurious compound, which will not have a beneficial effect. The Genuine Pills have a likeness of Sir Astley Cooper on each box; also the fac-simile of the signature of the Proprietors, Macphail & Co., London and New York on the directions. Sold at 25 cents, 50 cents and \$1 per box, by all respectable Chemists and Medicine Venders throughout the world. Full directions are given with each box. There is a great saving by taking the larger size.

Jenny. Well Annie, how did you get along with that stupid fool of a lover of yours? Did you succeed in getting rid of him? Answer: Oh, yes I got rid of him very easily. I married him, and have no lover now.

A western editor thus delivers himself: "We should say to the individual who stole our shirt off the pole, whilst we were waiting for it to dry, that we sincerely hope that the culprit may cut his throat."

An old maid recently defended old bachelors by asserting, that as they are generally the victims of disappointed love, in youth, they have the honor and manliness not to offer themselves heartlessly, to others.

The husband of a beautiful wife, returning home one day, was met by one of his offspring, all smiles, clapping his hands, and saying, "Pa, Mr. B. — has been here; he's such a nice man—he kissed us all round, and Mother too!"

STOP THE PAPER.—A country editor says he received the following "stop my paper": "Dear Sir, — I have looked carefully over your paper for six months for the death of one individual that I was acquainted with, but as yet not a single soul I can swear anything about has dropped off; so will please to have my name erased."

ADVICE TO SINGLE MEN.—If you don't wish to fall in love, keep away from Calico. You can no more play with girls without losing your heart, than you can at roulette without losing your money. As Bobbs very justly observes, the heartstrings of a woman—like the tendrils of a vine—are always reaching out after me to cling to. The consequence is, that before you are going you are gone, like a one-legged stove at a street auction.

"Why did you leave the old man Smith's so early last night?" was the question asked a young man. "Why you see I called to see Miss Nancy, and she wouldn't have anything to say to me; so I sat awhile, and the old man told me I had better go; I sat awhile longer, and then one of the boys came and took me to the door and gave me a push, when I thought maybe my company wasn't wanted, so—I left!"
